

Custom Mix Cattle Feed MEDICATED

Active Drug Ingredients:

LASALOCID _____ grams/ton (Bovatec)

MELENGESTROL ACETATE (MGA) _____ %
(Each pound contains _____ mg MGA)

Use Level	Indications for Use
Lasalocid: 100 to 360 mg/head/day (10-30 in complete or 100-1,440 g/ton in supplement) MGA: 0.25 to 0.50 mg/head/day	For improved rate of weight gain and improve feed efficiency For increased rate of weight gain and suppression of estrus (heat) in heifers fed for slaughter

Feed _____ lb/head/day continuously to provide 50 to 360 mg lasalocid and 0.25 to 0.40 mg MGA per head per day.

Important: Only for use in heifers being fed in confinement for slaughter.

Caution: Feeding undiluted or mixing errors may result in an excess Lasalocid concentration which could be fatal to cattle and sheep. Do not allow horses or other equines access to feeds containing Lasalocid as ingestion may be fatal. Mix thoroughly with grain and/or roughage prior to feeding. Safety of Lasalocid for use in unapproved species has not been established.

Warning: A withdrawal period has not been established for pre-ruminating calves. Do not use in calves to be processed for veal
