

Custom Mix Sheep Feed MEDICATED

Active Drug Ingredient: LASALOCID

This feed contains _____ grams per ton lasalocid* (Bovatec)

20-30 g/ton (0.0022-0.0033%)	For the prevention of coccidiosis caused by <i>Eimeria ovina</i> , <i>Eimeria crandallis</i> , <i>Eimeria ovinoidalis</i> (<i>Eimeria ninakohlyakimovae</i>), <i>Eimeria parva</i> and <i>Eimeria intricata</i> in sheep maintained in confinement
-----------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Feeding Directions: Continuously feed _____ to _____ lb/head/day to provide 15 to 70 mg lasalocid/head/day depending on body weight.

Caution: The safety of lasalocid in unapproved species has not been established. Do not allow horses or other equines access to lasalocid as ingestion may be fatal. (Supplements) Feeding undiluted or mixing errors may result in an excess lasalocid concentration which could be fatal to cattle and sheep.

*Grams per ton divided by 2 is equivalent to milligrams per pound.
