

Custom Mix Swine Feed MEDICATED

Active Drug Ingredient: RACTOPAMINE HYDROCHLORIDE

This feed contains _____ grams per ton of Ractopamine Hydrochloride (Paylean)

4.5 to 9.0 g/ton*	For improved rate of weight gain, improved feed efficiency and increased carcass leanness in finishing swine weighing not less than 150 lb, fed a complete ration containing at least 16% crude protein for the last 45 to 90 lbs of gain prior to slaughter.
--------------------------	---

* No increased benefit has been shown when the Ractopamine concentrations in the diet are greater than 4.5 g/ton.

Feed continuously as the sole ration to finishing pigs weighing not less than 150 lb for the last 45 to 90 lb (group average) of weight gain to slaughter. Not for use in breeding swine.

Caution: Ractopamine may increase the number of injured and/or fatigued pigs during marketing. Not for use in breeding swine.
